

AMENDMENTS TO THE CLAIMS

1. (Original) A fat composition of high purity diglyceride comprising:
85% to 99.9 % by weight of diglyceride containing 0.1 to 80 % by weight of conjugated
linoleic acid; and
the balance being monoglyceride, triglyceride or a mixture thereof.

2-11. (Cancelled)

12. (New) The fat composition of claim 1, wherein the monoglyceride exists in an
amount of approximately 0.3% to 1% by weight.

13. (New) The fat composition of claim 1, wherein the triglyceride exists in an amount of
approximately 14% to 15% by weight.

14. (New) The fat composition of claim 1, wherein the diglyceride comprises 1,2-
diglyceride and 1,3-diglyceride.

15. (New) The fat composition of claim 1, wherein the diglyceride contains 0.1%-14.5%
by weight of conjugated linoleic acid.

16. (New) The fat composition of claim 1, wherein the diglyceride contains
approximately 0.1% to 34% by weight of conjugated linoleic acid.

17. (New) The fat composition of claim 1, wherein the diglyceride contains
approximately 0.1% to 75.9% by weight of conjugated linoleic acid.
